ANTHROPOLOGY

The mission of this program is to present anthropology as the scientific global study of the biological and cultural aspects of humankind throughout time. This program will also prepare students to transfer successfully to a baccalaureate program at the university level. Students will be given the opportunity to apply theory and gain hands-on experience to explore the broad perspective of the diversity of interests that can be accommodated by pursuing a degree in anthropology. Training in anthropology will prepare students for any career that takes place in a multicultural setting.

Associate in Arts Transfer Degrees

Anthropology - Associate in Arts Transfer Degree (https://lbcc-public.courseleaf.com/degrees-certificates/anthropology/anthropology-aat/)

Certificate of Achievement

Archaeology Field Technician - Certificate of Achievement (https://lbcc-public.courseleaf.com/degrees-certificates/anthropology/archaeology-field-technician-certificate-achievement/)

ANTHR 1 (C-ID ANTH 110) 3 units Physical Anthropology 54 hours lecture

Grading: letter grade or pass/no pass.

This course introduces the concepts, methods of inquiry, and theory of biological evolution and their application to the human species. Issues and topics will include the principles of genetics and evolution, human variation and biocultural adaptations, comparative primate anatomy and behavior, and the fossil evidence for human evolution. The philosophy of science and the scientific method serve as foundations to the course. Transferable to both UC and CSU: see counselor for limitations

ANTHR 1H (C-ID ANTH 110) 3 units Honors Physical Anthropology

54 hours lecture

Prerequisite: Qualification for the Honors Program.

Grading: letter grade or pass/no pass.

This course introduces the concepts, methods of inquiry, and theory of biological evolution and their application to the human species. Issues and topics will include the principles of genetics and evolution, human variation and biocultural adaptations, comparative primate anatomy and behavior, and the fossil evidence for human evolution. The philosophy of science and the scientific method serve as foundations to the course. Transferable to both UC and CSU; see counselor for limitations

ANTHR 1L 2 units

Physical Anthropology Laboratory 18 hours lecture, 54 hours laboratory

Corequisite: ANTHR 1 or ANTHR 1H.

Grading: letter grade or pass/no pass.

This laboratory course is offered as a supplement to Physical Anthropology. Laboratory exercises emphasize the scientific method, and are designed to explore cellular structure, genetics, the evolutionary process, human variation, human and non-human primate anatomy and behavior, the primate/hominin fossil record, and analysis of human skeletal material.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 2 (C-ID ANTH 120) 3 units Cultural Anthropology

54 hours lecture

Grading: letter grade or pass/no pass.

This course is an introduction to the study of the concepts, theories, and methods used in the comparative study of sociocultural systems. This course includes a comparison of subsistence patterns, social structure, political organization, language, family, kinship, religion, and the arts as practiced by different cultures. It also explores social inequality, ethnicity, and gender and the application of anthropological perspectives to contemporary issues in the midst of culture change.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 2H (C-ID ANTH 120) 3 units

Honors Cultural Anthropology

54 hours lecture

Prerequisite: Qualification for the Honors Program.

Grading: letter grade or pass/no pass.

This course is an introduction to the study of the concepts, theories, and methods used in the comparative study of sociocultural systems. This course includes a comparison of subsistence patterns, social structure, political organization, language, family, kinship, religion, and the arts as practiced by different cultures. It also explores social inequality, ethnicity, and gender and the application of anthropological perspectives to contemporary issues in the midst of culture change.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 3 (C-ID ANTH 150) 3 units Intro to Archaeology

54 hours lecture

Grading: letter grade or pass/no pass.

This course is an introduction to the study of concepts, theories, and methods of anthropological archaeology as well as a review of significant data and models that contribute to knowledge of the human past. The course includes a discussion of the history and interdisciplinary nature of archaeological research; dating techniques and methods of survey, excavation, and analysis; cultural resource management; ethical considerations; and selected cultural sequences.

Transferable to both UC and CSU: see counselor for limitations

ANTHR 3H (C-ID ANTH 150) 3 units Honors Intro to Archaeology

54 hours lecture

Prerequisite: Qualification for the Honors Program.

Grading: letter grade or pass/no pass.

This course is an honors introduction to the study of concepts, theories, and methods of anthropological archaeology as well as a review of significant data and models that contribute to knowledge of the human past. The course includes a discussion of the history and interdisciplinary nature of archaeological research; dating techniques and methods of survey, excavation, and analysis; cultural resource management; ethical considerations; and selected cultural sequences.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 4 3 units Linguistic Anthropology 54 hours lecture

Grading: letter grade or pass/no pass.

This course introduces the connection of language and culture using anthropological perspectives. Language is presented as a shared system of symbols that encodes various cultural realities in all societies. This course surveys three core areas in linguistic anthropology. Structural Linguistics—phonology, morphology, syntax, and semantics; Historical linguistics—origins/evolution of language, language change over time, and language loss and revitalization; and Sociolinguistics—language acquisition in diverse cultural contexts and the intersection of language with race, ethnicity, gender, and other systems of power.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 10 3 units Magic, Witchcraft and Religion

54 hours lecture

Grading: letter grade or pass/no pass.

This course is a survey of systems of magic, witchcraft and religion from past and present societies around the world. The course examines beliefs and practices in cultural settings with respect to the role of the supernatural in people's lives.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 11 (C-ID ANTH 110) 5 units Physical Anthropology Lecture and Lab 72 hours lecture, 54 hours laboratory

Grading: letter grade or pass/no pass.

This course is a combined lecture and laboratory course and may be taken in place of Anthropology 1 and Anthropology 1L. Issues and topics will include the principles of genetics and evolution, human variation and biocultural adaptations, comparative primate anatomy and behavior, and the fossil evidence for human evolution. The philosophy of science and the scientific method serve as foundations to the course. Laboratory exercises will explore cellular structure, genetics, the evolutionary process, human variation, human and non-human primate anatomy and behavior, the primate/hominin fossil record, and analysis of human skeletal material.

Transferable to both UC and CSU; see counselor for limitations

ANTHR 20 3 units Archaeological Field Survey Methods 36 hours lecture, 54 hours laboratory Grading: letter grade or pass/no pass.

This course will introduce students to archaeological survey methods through lectures and supervised field experience. Instruction will focus on compass reading, topographic map orientation, research design, and creating maps using various survey instruments, including a pocket transit, automatic level, and electronic total station.

Transferable to CSU Only

ANTHR 30 4 units Maritime Archaeology Survey Technology 54 hours lecture, 54 hours laboratory

Grading: letter grade or pass/no pass.

This is a lecture/lab course designed to introduce students to the various survey methodologies and technologies used in maritime archaeology. Instruction will focus on the utilization of remote sensing technological equipment including; side scan sonar, sub bottom profiler, & proton magnetometer. Students will learn the background and history of maritime exploration, navigation and archaeology. Students will also learn how to create a survey research design utilizing this equipment as well as how to create maps of the surveyed area. Students will be trained in the set-up and deployment of the remote sensing instruments in mandatory field laboratory sessions. This course will also focus on the ethical and legal framework of submerged cultural heritage preservation. Mandatory field laboratory sessions will be scheduled at predetermined dates and locations and will be announced in the Schedule of Classes for the relevant semester.

Transferable to both UC and CSU; see counselor for limitations
