

DATA ANALYTICS

The Data Analytics program provides candidates with foundational skills in using industry-standard tools and methods to acquire data from a wide range of public and private data sources, filter subsets of that data, organize data into relevant information and present the results in commonly understood industry standards. Successful degree candidates are prepared for analytics-related employment in management, as data analyst specialists, or in management and operational consulting.

Certificate of Achievement

- Data Analytics - Certificate of Achievement (<https://lbcc-public.courseleaf.com/degrees-certificates/data-analytics/data-analytics-certificate-achievement/>)
