

FOUNDATIONS IN ACADEMIC RESEARCH - CERTIFICATE OF COMPETENCY

Plan Code: 6571

This program is designed to teach students the fundamentals of information literacy and media literacy as well as advanced topics on scholarly research in an academic setting. This program helps students understand the information landscape, formulate a research question, determine which resources to use for research topics, and how to effectively navigate online searches using the Internet and academic databases. The program introduces students to the philosophical, ethical, and legal issues that surround information.

Program Student Learning Outcomes

- Demonstrate knowledge of theory and skillsets related to research and computer services in library and information settings.
