

METAL FABRICATION TECHNOLOGY - CERTIFICATE OF ACHIEVEMENT

Plan Code: 3982

This program prepare students for an entry-level position as a trainee in metal layout, fabrication, welding and installation. It will place added emphasis on Computer Numerical Control (CNC) metal fabrication, design, welding, and advanced manufacturing techniques and help prepare the student for acceptance into apprenticeship in one of the metalworking trades environment.

Program Student Learning Outcomes

- Perform a common sheet metal layout and fabrication project.
- Perform common metal fabrication using power machinery to produce a fabrication project.
- Design and fabricate an advanced sheet metal project involving two different pieces of CNC fabrication equipment.
