

URBAN PLANNING - ASSOCIATE IN SCIENCE

² Elective units from course(s) numbered 1-599, if needed, to reach 60 degree applicable units.

Plan Code: 2907

This program provides foundational education in urban design, land use planning, and policy-making. Students will learn to tackle planning challenges using industry-standard GIS software and understand the socio-economic aspects of urban development. The curriculum promotes skills for entry-level roles in planning agencies or consultancies and supports transfer to bachelor's degree programs through strategic course selection. Graduates will be equipped to contribute to sustainable and resilient community planning.

Program Student Learning Outcomes

- Demonstrate the ability to attain the Institutional Student Learning Outcomes (ISLOs).
- Analyze program transfer requirements to prepare for successful transfer to a university level urban planning degree program.
- Demonstrate proficiency in urban planning methodologies, such as spatial analysis, community engagement, and policy development, to devise sustainable and inclusive urban environments.
