DESIGN/BUILD - CERTIFICATE OF COMPLETION

Plan Code: 6053

This program offers an immersive learning experience, equipping students with practical skills in design, drafting, 3D modeling, and construction. Students will not only master industry-standard tools and techniques, but also apply their knowledge through collaborative, real-world projects, laying a strong foundation for future educational pursuits and professional endeavors in the field of design and construction.

Program Student Learning Outcomes

- Develop proficiency in design, drafting, 3D modeling, and construction, enabling students to effectively integrate and apply theoretical knowledge to real-world projects across various design and construction disciplines.

Program Requirements

Code Number	Course Title	Hours
ARCHT 634	AutoCAD Basics	54
ARCHT 635	Rhino Basics	54
ARCHT 671	Design/Build Studio	108
Total Hours		**216**
